JUVENILE
BERKELEY, CALIFORNIA

What is a school? The dictionary defines a school as a place for teaching and learning; those who are taught and their teachers; any place, situation, experience, etc., as a source of instruction or training; and a place of training or discipline.

A great educator named Horace Mann, for whom many schools are named, once said that "the object of a common school system is to give every child a free, straight, solid pathway by which he can walk directly up from the ignorance of the infant to a knowledge of the primary duties of a man and can acquire a power and an invincible will to discharge them."

It is our hope and aim that Willard students will use every resource of the school to develop their abilities, skills, and capacities to the greatest extent possible in the two years they are with us.

May we take this opportunity to wish our Eighth Graders the best as they go on to new educational challenges at West Campus? To our Seventh Graders we would challenge them to make Willard a better school by their leadership and example.

Best wishes,

Arthur V. Shearer

Arthur V. Shearer,

Student Body President's Message

I have come to speak to you about freedom in Willard. Early in the spring semester, we achieved open campus. I believe we can achieve much more if we talk about it instead of using violence. I don't think violence is the only way. Sometimes it can get what you want, but it can also hurt a lot of innocent people.

I'd like to thank all the staff members and students who elected me Student Body President and I hope that next year the Seventh Graders can make Willard a school to remember.

Thanks again for making this a very memorable year.
